

6 JUN 1977

MEMORANDUM FOR: Legislative Counsel (U)

FROM: James H. McDonald
Director of Logistics (U)

SUBJECT: Sensitive Facilities and Services
Provided by Contractors (U)

REFERENCE:

STAT

1. (U) Action Requested: None; for information only.

2. Background and OL Position:

a. (U) The Office of Logistics (OL) has reviewed the active contracts which are funded directly by OL and under OL's cognizance with regard to identifying contracts over \$100,000 and meeting the other criteria of the referent letter. OL has no such contracts.

b. (U) As you may be aware, the DCI has recently requested a similar identification of contractors providing services to the Agency. OL was requested to respond for all Agency contracts with regard to that request, but OL's computer data base is not so compiled as to identify contracts by a specific type or quantity of services provided. Accordingly, it was necessary for the project focal point component to go to each operating component in the Agency in order to obtain the information requested by the DCI. It is considered that the Office of Legislative Counsel will find it necessary to undertake a similar type check in order to provide a comprehensive response to Senator Inouye's request. That is, OL's data base does not contain information in the proper array to allow OL to report comprehensively on all other Agency using components' contracts by type of service provided.

SUBJECT: Sensitive Facilities and Services Provided
by Contractors

c. (U) If OL can be of further assistance, please
contact me.
